

# CEDRIA WP Cleaner

Technical Sheet

## Technological Range

### Product Description

Innovative liquid blend designed for cleaning engineered woods (composite). Water-based.

### Properties

- Effectively removes the most stubborn stains: oil, grease, foodstuffs, mould, rust and other substances.
- Very easy application.
- Free from phosphates, ammonia, sodium hypochlorite and oxalic acid.
- Environmentally friendly.

### Recommended Uses

For the easy cleaning of composite slats. Also suitable for cleaning rattan and plastic furniture. Exterior – Interior.

### Technical Characteristics

Odour	Odourless
Viscosity	14" ± 2" CF4 (25°)
Density (20°C)	1.03 g/cm <sup>3</sup> ± 0.01
Solvent Type	Water
VOC	n.a.
Application Conditions	Maximum Relative Humidity 65%. Temperature between 5° and 35°
Storage	Conserve inside at temperatures between 5°C and 35°C
Container sizes	1l and 5l
Utensils and Cleaning	Brush. Clean with water
Coverage	10-12m <sup>2</sup> /l depending on state of surface and wood type

### Safety

- All current legislation must be followed in the case of storage and handling.
- Storage Life: 2 years in sealed containers and at storage conditions as recommended in the Technical Characteristics section.
- Prevent the product or product residues coming into contact with water courses. Remember, the care and protection of the environment is the legacy for our future generations.
- Keep out of the reach of children.

### Application

- Shake the product.
- Apply CEDRIA WP CLEANER – USO DOMÉSTICO using a brush and leave it to work on the surface for between 5 and 15 minutes without letting it dry completely.
- Brush the treated area.
- Clean off with water, preferably using a pressure-washer.
- In the case of persistent stains, repeat the operation until the optimum result is achieved.

### Additional Recommendations

- Drying times will vary according to temperature and relative humidity.
- The performance and behaviour of the product may vary slightly depending on the type of surface.

### Quality Guarantee

CEDRIA products have been developed, manufactured and sold under the most rigorous quality standards. These recommendations are made in accordance with the current state of our knowledge and provide general information about the application and use of the products. Given the variety of substrates, uses and application techniques, the purchaser/user remains responsible for checking the materials, their application and the final result. For this reason, the purchaser/user is advised to test the product prior to the final application.
