Density (20°C)	1.04 kg/l
Solvent Type	Organic
Application Conditions	Maximum Relative Humidity 65%. Temperature between 5° and 35°
Storage	Conserve inside at temperatures between 5°C and 35°C
Container sizes	500ml and 4 l
Utensils and Cleaning	Brush or Roller. Clean with water
Coverage	8 m <sup>2</sup> /l depending on state of surface and wood type

### Safety

- All current legislation must be followed in the case of storage and handling.
- Storage Life: 2 years in sealed containers and at storage conditions as recommended in the Technical Characteristics section.
- Prevent the product or product residues coming into contact with water courses. Remember: the care and protection of the environment is the legacy for our future generations.
- Keep out of the reach of children.

### Application and Preparation of the wood

- The wood should be free from dust, grease, residues and other substances.
- Product is ready to use.
- Use out of direct sunlight. Application at extreme temperatures reduces the effectiveness of the product.
- Apply with a brush in a thick layer on the surface you want to strip. Usage 250 to 350 g/m<sup>2</sup>.
- Leave to work for 20-40 minutes, according to the thickness and nature of the material. Do not allow the product to dry.
- Remove the product with a spatula, scraper or wire brush. For difficult to remove residues, scrub with a brush impregnated with CEDRIA GEL DECAPANTE.
- Thoroughly clean the stripped surface with abundant lukewarm soapy water.
- Leave to dry completely and rub with fine sandpaper.

### Quality Guarantee

CEDRIA products have been developed, manufactured and sold under the most rigorous quality standards. These recommendations are made in accordance with the current state of our knowledge and provide general information about the application and use of the products. Given the variety of substrates, uses and application techniques, the purchaser/user remains responsible for checking the materials, their application and the final result. For this reason, the purchaser/user is advised to test the product prior to the final application.
